## PROFILE & SKILLS

---

An experienced supermarket manager turned software developer who can build applications from the ground up using an array of technologies. I am passionate about software architecture and design, and I am keen to continue expanding my knowledge, learning about new technologies and languages. I am tuned to the business need to deliver high quality solutions and applications using Agile methodology. Coupled with my previous experience I feel I will be an asset to any organisation looking to employ a junior developer.

- HTML / HTML5
- CSS/SASS
- ReactJS including Hooks
- Bootstrap
- GitHub
- JSON
- Node / Express
- Document Object Model (DOM)
- JavaScript
- TypeScript
- SQL
- APIs and Web APIs
- User Authentication
- OAuth
- Heroku
- Agile Development

## PROFESSIONAL EXPERIENCE

---

### Software Developer - Junior - February 2021 - Present

I have spent the last 18 months learning the basics of software development culminating in the publishing of my first website, projects and portfolio which can be found at [james-bosley.github.io](https://james-bosley.github.io)

The courses and technologies I studied are:

- Cisco Networking Academy: Programming Essentials in Python
- Codecademy: Full Stack Web Development
- BrainStation: Web Development Bootcamp
- Canada Goose sustainability spotlight, microsite championing company's sustainability agenda.
- Sports game selection and performance insight tool built with React, utilising MySQL for data storage, Passport.js for user authentication and socket.io for real time connectivity.

### Deputy Store Manager - January 2018 - September 2021

Asda Stores Ltd

Responsible for overall running of the store including management of an unprecedented shift in shopping habits and other challenges brought on by the Covid-19 pandemic.

- Organisation of store, customers and employees to abide by new legislation covering lockdowns and quarantines.
- Coached and mentored junior team members to drive quality work across the team resulting in 5 promotions.

- In charge of Change Agenda in store to inspire colleague engagement and deliver the wider business plan.

**Store Trading Manager** – August 2010 – January 2018

Morrisons Supermarkets Plc

Responsible for smooth operation of the sales floor as well as support to senior management.

- Launched new back-office systems as a regional training specialist.
- Delivered turnarounds in performance for struggling stores by re-engaging teams and implementing best store standards, resulting in better-than-expected sales figures.
